Congratulations to Wilmington Area Rotary Clubs

Access Wilmington, the City of Wilmington Mayor's Committee on People with Disabilities, recently presented the six Wilmington, DE Area Rotary Clubs with the committee's Agency award for the Can-Do Playground. The purpose of the Access Wilmington Committee is to expand opportunities for Wilmington residents, workers and visitors with disabilities. To this end, the committee works with private and governmental organizations to heighten public awareness of the unmet needs, potential contributions and achievements of people with disabilities.

The Can-Do Playground, located in the Alapocas Run State Park, was developed as a partnership between the State's Division of Parks and Recreation, DelDOT and a non-profit corporation founded by six Wilmington-area Rotary clubs.

The playground provides an integrated and sensory rich play space for children with physical, sensory and developmental disabilities by implementing play facilities that can be used simultaneously by disabled and fully able children.
